

I would like to put forth my comment regarding the FCCs proposed changes in 'how' the Decency Standards are enforced. The phrase, 'if you don't stand for something, you'll fall for anything', comes to mind upon hearing about this recent proposal from the FCC. How lightly have traditional notions of morality and decency been disregarded and even mocked by many a generation. Is this 'new' morality and openness bringing more joy and happiness into our lives as individuals and as a society? I view daily, in local and national news reporting, acts of sheer depravity and complete and utter selfishness perpetrated by those who have allowed themselves to watch, listen, think upon and then to act out these evil designs. Many of which they have seen many times over on their television, computers and phones etc. Does anyone making these decisions know that loosening time-honored values and moral standards including the enforcement of such will only facilitate and foster this uncivilized and evil behavior? Yes, evil does exist contrary to the beliefs of many in our country. There is an opposition in all things on this earth or else we could not use our agency to choose good from evil or to taste bitter in contrast to the sweet etc. Please use your God-given moral agency to make the correct and true choice.

Our country is big on FREEDOM, yes many think that they can do what they want without consequences. This is a false reality. You can see the results of our societies indulgence in pornography and profanity and violence all around us. Pretty please, awake from your deep sleep, ye guardians of the airwaves! Stand for truth! Stand for Right! (yes there is right and wrong, they do exist) Stand for Duty!

To what depths must we go before we say NO? I recommend restoring our country to the values it was founded upon e.g. Honesty, Honor, Respect, Modesty (in thought and dress), Faith, Love, Forgiveness, Self-Reliance, Sacrifice (not something for nothing) Familial Bonds with a Mother and a Father in the home, Integrity and on and on. Remember, Please remember, There ARE consequences short term and long term for breaking Divine Law on this earth. We have the agency to choose, but we don't have the luxury of avoiding the consequences of incorrect and immoral choices. Some will be immediate and others will manifest themselves over time. We unfortunately are beginning to witness on a daily basis how 'inhumane' humankind can become. The constant viewing of sensual and profane behavior by our people is a major contributor to this behavior. If you don't believe this, then please open your heart begin to understand Truth. Let's do this before it's too late! Thank you.
